

CHARGING BARAK OBAMA AND AMERICA IN INTERNATIONAL COURT

In Dehai on line news of 19 October 2016, it has been reported that eight Eritrean women were imprisoned and made sex slaves by the notorious IS in Libya.

These terrorists know no human dignity and behave like drug addicts. Originally, these terrorists were founded by America and were in the payroll of America, to carry out America's strategy in the Middle. After they fulfilled America's mission, America turned its back on them and branded them as terrorists. Thanks to America, they had already amassed plenty of weapons of destruction, their head spinned with the idea of establishing an Islamic State and added flames to the already burning Middle East which they set on fire.

These extremists were created by America, to carry out its strategy disguised as opposition force. America used them as dirty soldiers, to spare the life of its soldiers and to entangle the whole of the Middle East in war, to tighten its grip on the whole world and also Israel, to deepen its claw on the Middle East: America's inception, to get things done through the IS extremists. The mission was to create today's Iraq, Syria, Yemen and many others.

Going back to the sex enslavement of Eritrean Women by the Terrorists, the shameful Barak Obama, who never lived up to his promises, primarily to the Afro-Americans who voted him to office and to lesser extent to Africa, is the main responsible person for such untold tragedies. This evil man, murdered the great Son of Africa, Moamer Gadaffi. He never considers himself as a member of the black people but as white, is the forward man of the Bushes and the Clintons. To date, it is still mysterious how this man was chosen to receive the Noble Peace Prize before he even started his job.

This man told the whole world that he in cooperation with his recruited Agents, inside the country, at the borders with Sudan and the sell out Eritreans, in America and Europe, was luring young Eritreans to leave their country with the promises of Visas and Asylum Status. So, this man is directly responsible for untold suffering of these Eritrean Women in the hands of the IS extremists.

As a result, it is with full conscience and conviction that I demand this man be charged in the International Court. If I had the means, I would have done it hundred percent. I urge the Government of Eritrea, to charge this person in the International Court, for the sufferings America caused to the Eritrean People. America denied our Independence and we suffered for forty years and because of this evil country, the Eritrean People are still suffering. I know, to charge Barak Obama or America to court is an uphill task. Because, this country is the Police of the World. America can kill (it kills its own people-Afro Americans every day), she can detain, she can set Killers free, killers like (Bush, Blair, White Police), she can blockade countries, she can order any country and any person of that country not to get out or to get in the country. She can order a sit down punishment like a child. For America Injustice is Justice, Truth is Fake, Fake is Truth, Killing is Right, Self-Reliance is Dictatorship. All those who do not follow America's orders are enemies and

should be severely punished. The whole world should be under the feet of America. America has thousands of Atomic Bombs. Only she can own Atomic Bombs and detonate them. She can bomb anyone who strays on its way

Therefore, like I said charging Barak Obama and the Country America may not be easy. I know at the end, we will lose in the court, because, America is the Accused, the Judge and the Court. But for the sake of Truth, Eritrean Dignity, Eritrean Pride and Eritrean Self-confidence, the Eritrean Government should set an example, an example simply to show the world of the harassment and distraction this country is causing the world. We know we are weak and we are no equal to America's Might, but we should not be afraid for demanding Right and Justice and that we are part of this World.
