

Hizbawi Mekete with Issayas Tesfamariam

San Jose, CA

The monthly Hizbawi Mekete Public forum on current Eritrean affairs will be held on **Saturday, May 2, 2009** at Eritrean Community Center. This time, Mr. Issayas Tesfamariam, a Film Director and researcher will introduce us two parts of the presentation: **ERITREA AND THE MEDIA**, an educational session reinforced with slide presentation and discussion session including Media / Communication Theory, decoding, framing, gate keeping, public relations, etc., while the second section is his first film screening of "**Asmara: City of Radiance**".

Please join us in this continued forum of National Mekete, defending Eritrea and its people to their best interest, whether at home or abroad. We all remember that our last month's Mekete involved Gual Haras Nebri Sofia's "Eritrea: Challenges and Threats Posed by New Religious Movements", how the Western introduced Religious activities play role in destabilizing poor countries, including Eritrea and its citizens.
