

*“Observations and Impressions of Agricultural, Mining and Infrastructural Developments in Eritrea”*

*Dr. Kiflai Ghebremedhin, Cornell University, has "travelled extensively (North, South, West and East regions of the country) to observe and learn developments in various sectors, and understand the economic potential of Eritrea. The purpose of the presentation is to share [his] experience especially with the young generation who haven't had the opportunity to visit [Eritrea] as [he has] and hopefully learn something from it."*

*This is a unique opportunity of experiencing a virtual tour of Eritrea and we invite Hizbawi Mekete supporters to participate and enrich their perspective.*

*Place: 7015 North Ravenswood, Chicago*

*Time: 1:00 PM*

*Date: March 20, 2010*

*Hizbawi Mekete of Chicago*
