Call Security Council, Eritreans, call

Call “Insecurity Council”, Eritreans, call
Let phones ring non-stop, regardless of toll
United we stand, divided we fall
Show your unity, reflect you're tall
Let the topic dominate,
In New York's Office hall

Remember Patrick Henry, Eritreans recall
Freedom & Liberty, and Justice for all
What goes around, comes back to control
Rebound Eritreans, throw the sanction ball
Back to the bigots' council,
The mercenaries' mall

Fax Colombia, Brazil, & India, Eritreans do fax
E-mail from own home, or else Office Max
Expose injustice, the “Insecurity Council”'s axe
It's not time to tranquil, not time to relax
We will Never Kneel Down for injustice,
Against all the sanction odds

When everything fails, in desperation climax
Digging for scapegoat in failed dominance
A nation of the brave, the land of defiance
A Self-Content Nation, in a Self Reliance
Eritrea cannot be a pawn,
The State of Resilience

Be it the Arab League, League of Monarchy
Be it African Union, Union of slavery
Or else African baboons, the IGAD mockery
Against all the fabrications, against all brewery
We'll Never Kneel Down,
Let disclose history

**Eternal Glory to our Martyrs !
Wetru Awet n'Hafash !**
