PRESS STATEMENT

3 October 2011

RE: Seminar with H.E. President Isaias Afwerki on 25 September 2011

H.E. President Isaias Afwerki came to New York to participate in the 66th UN General Assembly Meeting. Whilst he was in New York, in line with Eritrea's political culture, it was determined that he would hold a seminar with Eritreans living in North America. It was momentous pride-filled successful event; a manifestation of the tight knit peoples' unity and a historical affirmation of the unwavering respect and love between the Eritrean people and the leadership.

Once the place for the seminar was confirmed, the Organizing Committee did everything it could to find a venue to fully accommodate the thousands that came from near and far, but despite all its efforts, there were many who could not participate in the seminar as the place was not big enough. The Organizing Committee offers its sincere apologies for all inconveniences caused and especially to those who were unable to attend the seminar.

The venue was filled to capacity and many remained outside for the duration of the seminar and until President Isaias went out to greet those who were outside. The Committee applauds the people for their patience and their ability to organize themselves, to use the moment to demonstrate to all outsiders the true face of Eritrea and Eritrean identity. Besides being a manifestation of the people's deep consciousness and magnanimity, it portrays the people's ability to make the best of the situation and build on an already successful event, worthy of our praise and admiration.

The Organizing Committee takes this opportunity to thank the people for their continued cooperation, support and understanding.

Thank you,
PIA Seminar Organizing Committee
