These are some of the main developments and differences, witnessed in the last two decades, between US propped, Dictator Meles Zenawi led Ethiopian government and Independent minds of Eritrean leaders, led by visionary H.E. President Isaias Afwerki, that allows you declare, “Say Loud, I’m Eritrean and Proud !”. We all know, and proudly accept, the all-round temporary sacrifice the society makes, as we have first-hand experienced what sacrifice meant, to the extent of giving young life, for the best interest of Eritrea and its people, in order to guarantee the lasting political, economic, cultural and military Independence that no willful betrayal or unjust sanction would dare, let alone to dismantle Eritreanism but even to divide our society based on Regional, religious, and ethnic lines. After all, Eritreanism is not all about self but Eritrea and its people.

We will Never Kneel Down, against all the sanction and betrayal odds, as we see the light at the end of the tunnel !
