

Successful Hizbawi Mekete in Las Vegas, NV, United States of America, December 12, 2012

Eritrean community members residing in Las Vegas, United States of America voiced readiness to back up the national development drive and demonstrate staunch resistance against enemy conspiracies. They made the pledge at a meeting in which they expressed appreciation for the development accomplishments being registered in the Homeland.

Present at the meeting was Eritrean American activist, Mrs. Sophia Tesfamariam, who indicated the strong resistance of the Eritrean people that brought about independence, ensured sovereignty and is working developmental miracles is the main target of those external conspirators. She underlined that efforts to withstand the external hostilities have led to the further strengthening of the unity and will of Eritreans contrary to the objective of the ill-wishers and that currently the Government and people of Eritrea are at a strong social, economic and political stage. The participants commended the efforts being made by the Government to enable the citizens to become beneficiaries of national resources and improve the socio-economic standard of living of the people and that they would live up to expectations for the success of national development programs and reinforce resistance.

They further indicated that the major development programs in the country are vivid evidence of the strong spirit of resistance and can do attitude of the Eritrean people and that they would reinforce participation for the success these programs.

Mr. Isaac Abraham, Chairman of the Shimagle Mekete in Las Vegas branch, said that hostile acts of conspiracy designed to impede the nation's development progress would end up in utter failure, and that the country is at a stage where it is looking towards bright future thanks to the steadfastness of its people and leadership. Over 200 nationals attended the seminar that took place on December 12, 2012.
