

## Phaesun GmbH at Eritrean Festival Germany Gießen 07 - 09.07.2017

At the invitation of the Festival Organizing committee, **Phaesun GmbH**, an Off-Grid Solar Photovoltaic system integrator from Memmingen/Bavaria, participated at the annual Eritrean festival Germany, which was held between 07 – 09 July 2017 in Gießen.

Phaesun presented in detail its products range, solar energy solutions and expert services in the area of solar PV energy solutions.

Objective of our presence was to raise awareness among Eritrean diaspora community on the potential application of renewable energy in Eritrea, and introduce the activities/projects of Phaesun in Eritrea. Phaesun GmbH has been present in Eritrean since 2001, through its local representative **Phaesun Asmara Plc**, and has implemented several PV projects for rural home systems, hospitals, schools and community water supply projects.

Engineer Russom Semere, Haimanot Tekeste and Temesghen Tekle participated at the festival representing Phaesun, and they had a good impression of the festival with respect to organization, participation and facility.

Some pictures of the event can be downloaded at the below link of Phaesun facebook page.
