

THE ETHIOPIANS: NEAMIN ASHENAFI/YACOB HAILEMARIAM

LIVING IN MYTH AND FAIRY TALE

I feel obliged and believe to be my duty to my country Eritrea, to give response to the absurdity and typical Ethiopians mentality and psychological warfare they spread against the Population of Eritrea. They avoid to face reality and go zig-zag and ever cheating course, throughout their life.

Their article titled, Breaking the deadlock: Ethiopia-Eritrea relations posted on DEHAI.ORG on May 06, 2018, reveals what I have tried to describe them here above.

Neamin Ashenafi writes in his article, “...the response from Eritrea's side does not appear to be favorable, showing little interest for peace talks...” You people never ever tell the truth throughout your life. You live on three thousand years of myth or fairy tale of history. The history of your Kings, King of Kings, Lion of Juda. How could we take you seriously, if you don't get out of myth and fairy tale and tell the truth?

Back to Neamins assertions, how could we take up peace talks, when you still occupy our territory? You sit on our territory and yet expect us talk to you? You dictate us what to do while you are still on our Territory? I tell you again, you still living in myth and fairy tale. Wake up; get out of your false tale. Yes, we are adamant like you said until you leave Badme and our other occupied territories.

Neamin's photos of the cities of Asmara and Addis Ababa, put side by side, for the reader to get a glimpse, is evident what he wanted to convey. He meant a sort of psychological warfare. The truth is that we Eritreans are aware of such warfare not only to this simple Ethiopian warfare, we are also used to your masters psychological warfare, since long time, and we know how to get along with your masters warfare also.

The picture showing Addis Ababa with many Skyscrapers is a distortion of facts and fake news. This is betrayal of your own people. Skyscrapers in the middle of a jungle, whereas the population in the rest of the country live in utter poverty. Mr. Neamin, your photo of Addis Ababa does not show the people who live on the streets, those who live under Bridges and in the outskirts of the city, under trees and kids begging on the streets of Addis Abeba. That is why I have said that you people never tell the truth. Mr. Neamin, the skyscrapers in your picture are built with the aid of billions of dollars from your masters and West Europe, year after year. Some of these high rises belong to foreign Billioners who are blood suckers and in which the poor Ethiopian population get no benefit at all. Mr. Neamin you are a dishonest Ethiopian, otherwise you could have gone outside of Addis Abeba and showed the true picture of the life of your poor people. But like I said you people live in hypocrisy.

On the other hand, you showed an old picture of Asmara. True Asmara has no skyscrapers built by imperialists and billioners in which the ordinary people will have nothing to with. But have you heard that Asmara has been described as the most beautiful and modern city of Africa? Have you heard also Asmara is in the UNESCO World Heritage List?

We Eritreans don't believe on Skyscrapers, we believe in the continuous improvements of the life of our citizens and that is what our Government is doing.

In your article you quote the assertions of your fellow countryman, Yacob Hailemariam. On his part he says, ...the present dangerous stalemate existing now is the consequence of involving foreigners in the mediation and settlement....This is simply trying to twist facts willfully and to misinform your fellow countrymen. But but you cannot misinform us Eritreans. I don't think you have a full knowledge of how the conflict started and ended. To refresh your mind, The President of Eritrea, his Excellency President Isaias Afewerki has repeatedly tried to convince the then Prime Minister Meles Zenawi that the conflict should be settled without outside interference by calling Commission from both nations. Your Prime Minister refused, because he had ulterior plans to achieve. Badme was only a kick-up for war. Like your Prime Minister's plan, the war was kicked off and when your Prime Minister saw that his plan was miscarried, then he agreed for the Algeries' Conference.

Again, Yacob Haile-Mariam speaks, "the greatest lacuna was shutting off Ethiopia from access to the Sea through its own port Assab..." What! Are my ears herring me right! Who told you Assab is your port? As I said above, you people live day-dreaming and myth and fairy tale. If you do not gather the courage and face the truth, you will live in myth and fairy tale, always biting around the bush. Do you know that the Red Sea is called since time immemorial as the Eritrean Sea, named after the small living creatures in the coasts of the Red Sea. We are the owners of our Red Sea and our Ports.

Yacob Hailemariam further suggests "....both countries should reject both the Algiers and Commission's decisions and start over, if they are to find a lasting peace...." Really? Mr. Hailemariam, you are trying to sell us an impoverished bomb. If you are not, we Eritreans are still with our senses.

You again talking loose, "...the removal of Isaias from power...."

The removal of our hero is none of your business. How do you dare to tell us this? You know better than us what is good or bad for us? You mean because he is on the way of year day-dreaming? Let it be clear to you, he is the voice of the Eritrean People, with the exception of certain traitors like Asefaw Tekeste, Andebrehan W. Ghiorgis, the heirs of Bereket Habteslassie who is unable to continue his treachery to the country as he mentally and physically finished. You are simply telling us how naive you are. The fact is, we cannot prohibit you from day-dreaming.

All your never ending deception trials is to lure Eritrea to come to the table. Sometimes you call it negotiation, sometimes you call it discussion, sometimes you call it dialogue so on and so forth. Then once Eritrea comes in terms with your calls, then you and your masters will tell the whole world and call the Hague Verdict Null and Void, because Eritrea came to dialogue or negotiation what so ever. The Eritrean Government and the Eritrean People know very well the trap you wanted to lay down. However, it must be clear to you, you will never get us off guard.
