

## **THE UNJUST WESTERN MANIPULATED NOBEL PRIZE AWARDS**

**My subject is on the this year's Nobel Peace Prize awarded to the Ethiopian Prime Minister Dr. Abbey Ahmed. I have no greed and no reservation against him, rather pleased that the Ethiopian Prime Minister got this Prize. However, I find it reprehensible that a number of Noble Prizes are awarded not on real achievements but on political interests of the western countries, like the USA.**

**Sticking to the award of the dear Prime Minister, to my understanding, it should not have been exclusively coveted to the Ethiopian Prime Minister, because whether the western countries like it or not, the other half of this award belongs to the great Eritrean President, Isaias Afewerki. Peace accord can be reached only when two or more Parties give their consent to it. The great Eritrean President is equally worthy of the Award. The reason the Eritrean President was denied half of the award for the whole world to see that the Ethiopian President is a dear friend of the West and the Eritrean President is an enemy. This Award was given not on the achievement but on been a loving one. Being a friend. Being a stooge of the West. The Prime Minister of Ethiopia has not achieved in his life what the great Eritrean President has achieved. He offered his whole life for his country and people for thirty years. He drugs his people out of the sticky mud prepared by the West, mainly America. He led his people out of the Death Valley to safety. As a result, the Eritrean President cannot be a loving one of the West.**

**The decision of the Nobel Prize Committee ignoring the roll of the Eritrean President and recognizing only one Part from the whole is mischievous and irrational. As usual, deceiving the world community.**

**Isn't the whole truth that the Eritrean President after the Final and Binding Decision of the Hague who offered the olive tree for over ten years, in which the notorious WEYANE Clique, with the help of the infamous dramatikers, Barack Obama and Susann Rice refused to make peace and occupying our Land till today. By the way, the Prime Minster of Ethiopia although Peace Prize awarded, has made Peace with Eritrea only in Writing. He has yet to deliver what he agreed and signed on paper. He has not faced WEYANE to**

evacuate our Land. They are still occupying our Badme and other areas. The awarding of this Prize reminds me of the award given to Barak Obama, who has had no political experience or achievements, who was barely in office, was also awarded Nobel Peace Prize. Another mischief of the Nobel Committee. The Nobel Prize has many times failed its original inception.

Some years ago, The Nobel Peace Prize was shared between Yasser Arafat, Yitzak Rabin and Shimon Peres. According the Nobel Peace Prize Committee, they made a long awaited peace. The peace was not made by one party only. All parties made peace and all shared the award. Yasir Araft was not a loved one of the West. They just decided to award him because they wanted to help Israel.

Other winners who shared the award are:

Aristide Briand and Gustav Stressmann

Mohammed Anwar Al-Sadat and Menachem Begin

Nelson Mandela and Frederic Willem de Klerk

This should have been the case also with the leaders of Eritrea and Ethiopia. It should have been a good chance for the West to do Eritrea JUSTICE. Such political bullying will only make Eritrea drift away from the unjust West. Eritrea's wounds afflicted by the West will not be easily forgotten. They need a long time to heal.

In conclusion, I would like to come up with a suggestion to the Eritrean community in the Diaspora. Let's not fail our LIVING MARTYRS. They are our LIVING HEROS. If the unjust West fails them, lets us not fail them. I have the Idea of creating an ERITREAN ALTERNATIVE NOBEL PEACE PRIZE and awarding our great LIVING MARTYR, our great President an Alternative Eritrea Noble Peace Prize.

I appeal to the whole Eritreans in the Diaspora, specially to the Eritrean Women's Union who were the spear head in the struggle for our independence and still are spear heads of today's Eritrea, to call to life this idea. These appeals also to the Eritrean Communities in the diaspora, who have the potentiality and capacity to work on such an idea. Remember, Eritreans have the inborn instinct, for clinching our teeth in difficult times and have the inborn, I can do it trait.

There are an estimated of nearly one million Eritrean's in the Diaspora. If fifty thousand Eritreans contributed 50 EUR each, it will sum up to two million five hundred thousand EUR (2.500,000,00 EUR). This sum is three times the award of the Peace Prize, which is about 895,000,00 EUR. If we succeed to call to life this Fund, we will make history. The Fund could be also awarded every year or at intervals to our LIVING MARTYRS or to other Eritreans for outstanding achievements. If creating of this Fund comes to realization, I hereby give my word to be the first to contribute my share every year.

Eternal Glory to our Martyrs
