

ERITREA IS STILL UNDER ATTACK BY THE OPPOSITION AGITATORS

By: Yemane Tsegay
July 1/2020

The Opposition Agitators are following what they are told to do: to attack the Eritrean Government through the UN Human Rights Council. This is the tactic that all progressives follows.

I. The Anti Eritrean Plan

They were explicitly instructed to do this by the past Obama Administration and it was Obama's Administration that help to mold and unify and modernize the Eritrean opposition agitators by aggressively implementing the two past sanctions successfully and were passed as anti Eritrean sovereign rights that we the Eritrean masses have felt that the UN Human Rights Council are denying us our nation's right to exist. They even attempted to pass a third sanction that ultimately failed. These are some of the worst examples given from the past that exited and galvanized them to remain as permanent agitators against the government and the nation of Eritrea. It was the Obama administration that orchestrated that plan to constantly attacking Eritrea through the UN HR Council.

These agitators are continuously criticizing Eritrea by saying there is no democracy or publically elected officials by the people of Eritrea. But, instead Eritrea has a one man dictatorship running the country by a socialist based ideology. Their criticism have no merit, in fact the nation has been practicing and achieving many planned developmental goals. The government have been using all available Eritrea's manpower to work together in tackling different sectors of Eritrean society one by one such as: national self sustaining food programs, having self sufficient water aqua system for everyone. In addition, tackling the national electrical grid throughout Eritrea. Eritrea is also, building health and educational centers in all the major cities of Eritrea.

Despite all of that, Eritrea's antagonists continue to blame for everything and is centered around the unenacted 1997 constitution. Just for the sake of argument if we let that constitution enacted, we would be allowing constitutionally any deviant anti social anti Eritrean cultural values to perform a legalized form of marriage between the same sexes and they will be issued a license that could **promote** and **facilitate** for the LGBTQ life styles. ([See 1997 Eritrean constitution Art. 14 \(2\)](#)), which will exacerbate the massive health crises; that, has been occurring in Eritrea for the past 30 years of the highest AIDS rate in the Sub Sahara Africa. We already have the virus and by legalizing it, only more Eritreans would die from this newly sanctioned life styles.

Going back to the issue of the 1997 constitution, if we allow it be enacted, it will ultimately end the Eritrean regime not to be governed under the EPLF/PFDJ ideologically driven administration; they will favor a constitution that empowers the socially ill progressive individuals who engages in the LGBTQ life styles. These can happen through the legal manipulations of the law and eventually will be the majority of the Eritrean citizens. Under the scenario of the 1997 constitution allowed to become the supreme law, many Eritrean citizens inside the country will be infected with HIV from sexually transmitted diseases and will be dying of AIDS. Isn't this the ultimate goal of the agitators to destroy Eritrea from the **Inside Out** like a virus would?"

II. Bereket the Author of the 1997 unenacted constitution

Bereket Keshi H/Selassie

Bereket who authored the 1997 unenacted Eritrean constitution has engaged in fraudulent activities as written in that constitution that he delivered to the Eritrean Government. But finally he realized that the Government has figured out his malice constitution and how detrimental it would be to the National Society of Eritrea; he is now so shocked and worried that the Eritrean Government have decided to never enact his devious constitution and they chose to draft their own national constitution. The government of Eritrea has an obligation to investigate the overwhelming crime of Bereket based on the unenacted 1997 constitution alone against the nation of Eritrea and its people for knowingly writing a completely fraudulent constitution. It is in this context that he felt truly the government of Eritrea has already investigated the issue and could prosecute him legally. He is also worried that the government has full evidence of long list of his criminal activities of his writings one sided fraudulent agreements.

That was the main reason that he quickly contacted his friend Prof. Joseph Eliot from the (Faculty of Law, University of Ottawa) to set up a quick forum and released another fraudulently created statement with criminal intent that he offered in which the professor reported: "As I will show in what follows, the U.N. recommendations to implement Eritrea's 1997 Constitution are misguided, If acted on, the Constitution would likely become a procedural facade behind which Eritrea's two large nationalities would continue to dominate and dispossess its eight smaller nationalities, as is happening today. Over time, with the dictatorship removed, Eritrea would probably descend into a protracted civil conflict between national communities, perhaps spilling

over into neighboring countries, with uncertain outcomes for geopolitics and devastating consequences for human rights”.

Then, he continuously reported that: “Eritrea is multi-ethnic, multi-religious and multi-lingual. The 1997 Constitution creates a highly centralized Stalinist structure that experience teaches does not work in deeply diverse democracies. Eritrea requires a power sharing constitution, fabricated in a proper negotiated process”. He carried on and said: “Implementing the 1997 Constitution would likely bring Eritrea’s two large nationalities into conflict with its eight smaller nationalities with high risk for violent civil strife that could spill over into neighboring countries. This is concerning for geopolitics and would be devastating for human rights”. [For more detailed information click here.](#)

III. Who is Joseph Eliot?

Prof. Joseph Eliot has a long history of advocating for a one sided view that he is always motivated by monetary financial benefit, he is approaching the Eritrean Afar without the consent of the Eritrean Government under the guise of helping them through Humanitarian Aid; but in reality he is wishing that financially benefiting once the Eritrean Afar would have a possession of the **Danakil Depression** and its surrounding land. That **Eritrean land** happens to be rich in potash oil gold, he could have an access alone or with all the companies who hired him to possibly extract all the mineral rich deposits such as the: potash, gold, oil etc and others that can easily mined in that area. He is setting up meetings with the Afar fighters and clans to directly **facilitating** them to form their own government. To do the job successfully he expressed openly his satisfaction by confirming that he is in agreement with them when they announce their formation of the Eritrean Afar State in Exile, a justification of a succeeding attempt from Eritrea to form their own nation. Then, that would be easy to financially backed by progressive nations around the world such as Israel, USA, and other social progressive European countries as: (Iceland, Norway, Switzerland, Canada, Australia, New Zealand, Germany and Austria).

Prof. Joseph Eliot, a very interesting person who entered Eritrean land through Tigray of Ethiopia in an effort to monetarily benefit him if he could obtain the Eritrean mineral resources. He is a very ambitious person to enrich himself and without carrying the proper entry visa documentation he set a foot on Eritrean land illegally, he is engaging in the espionage against the Nation of Eritrea. Now, his outlawed activities will be investigated and he could be set up for prosecution by the Eritrean judicial system so that he would remain in an Eritrean prison for his duration of his life.

At this moment, the progressives see an opportunity to use the same tactic that they have used to break away the South Sudan from the larger Sudan. They believe by using the same crooked plan that the same thing would happen to Eritrea when the Afar break away from the larger Eritrea to form their own nation that would allow direct access to foreign imperialistic powers to Eritrea's large reserves of potash, oil, gold etc.,

All of these activists such as: Joseph Eliot, Bereket Habteselassie, Obama, Sheila, all the Opposition Organizers and Agitators are financially based. These are all designed for financial compensations for them to recoup their loss to these effort. At the end all these activists are following what was originally designed by Clinton and Obama to cripple Eritrea financially by stealing a massive source of its revenue in the form of easily extractable resources of gold, potash, oil etc.

IV. Eritrea's Legal Action Against Any Infringement

The National Security Strategy of the nation of Eritrea could be impacted by these two individuals: Bereket Habteselassie and Prof. Joseph Eliot. Prof. Joseph Eliot committed crime by intruding into Eritrean land for espionage in an unlawful activities against its legal sovereignty; Any intruder who knowingly infringe on Eritrea's sovereign legal rights, he should understand that he or she will be legally investigated and prosecuted.

Eritrea will exercise its sovereign legal rights against Prof. Joseph Eliot that he is infringing against the nation of Eritrea in facilitating a separatist group from Eritrea as well as obtaining military, political, commercial secrets through espionage. He will be prosecuted so that Eritrea will recoup its damage that has incurred as well as Eritrea has the legal right to contact and write a letter to the chancellor of the Faculty of Law, University of Ottawa or where he is currently teaching and report him to the chancellor about his legal status in reference to the nation of Eritrea and request his removal from that university immediately. It is unlawful to utilize the equipment of the university or to hold meetings or functions against the nation of Eritrea.

Bereket who authored the 1997 unenacted Eritrean constitution knowingly writing a completely fraudulent constitution, must be prosecuted at this time in Eritrean judicial system.

From here on "no one shall infringe on Eritrea's sovereign Rights ever again".
